v. 22-24

1930/32-34/36

LETTER OF TRANSMITTAL

DEPARTMENT OF AGRICULTURE
STATE OF FLORIDA
OFFICE OF COMMISSION

*To His Excellency
Hon. David Sholtz,
Governor of Florida.*

SIR: I herewith submit to you the Twenty-second Bien-
nial Report of this Department for the fiscal years—July 1,
1930, to June 30, 1932.

January 1, 1933.

NATHAN MAYO,
Commissioner of Agriculture.

PERSONNEL OF THE STATE DEPARTMENT OF AGRICULTURE

NATHAN MAYO, *Commissioner of Agriculture*
MRS. E. E. SELMAN, *Secretary to Commissioner*
T. J. BROOKS, *Assistant Commissioner*

DIVISION OF AGRICULTURE AND IMMIGRATION

MRS. VERA LEVERETTE, *Stenographer and Filing Clerk*
MRS. B. L. JONES, *Clerk*

Commissioners of Agriculture of Florida

AS REGISTER OF LANDS—

John Beard: January 12, 1847, to May 29, 1849.
David S. Walker: November 23, 1850.
Hugh A. Corley: Dec. 31, 1859, to Dec. 31, 1866.

AS COMMISSIONER OF IMMIGRATION—

Oscar E. Austin: August 7, 1868.
J. S. Adams: January 14, 1869, to January 16, 1873.
Dennis Eagan: March 4, 1873, to 1877.
Hugh A. Corley: January 3, 1877, to March 16, 1882.
P. W. White: March 16, 1882, to February 12, 1885.

AS COMMISSIONER OF LANDS AND IMMIGRATION—

C. L. Mitchell: January 29, 1885.

AS COMMISSIONER OF AGRICULTURE—

L. B. Wombell: December 31, 1888.
B. E. McLin: January 1, 1901, to March 1, 1912.
W. A. McRae: March 1, 1912, to October 31, 1923.
Nathan Mayo: November 1, 1923.

PREFACE

In presenting this Biennial Report, I wish to call attention to the fact that each of the ten Divisions of the Department of Agriculture issues its own Reports. The ten Divisions are as follows:

1. Division of Agriculture and Immigration, which also conducts the Census Bureau, Enumeration of State Resources and State Advertising.
2. Division of Pure Food and Drugs, Stock Feed, Fertilizer, Gasoline and Oil.
3. Division of Land.
4. Division of Field Notes.
5. Division of Prison.
6. Division of Shell Fish Commission. ✓
7. Division of Chemistry.
8. Division of Dairy Inspection.
- ✓ 9. Division of State Marketing Bureau. ✓
10. Division of Citrus Fruit Inspection.

The Constitution of the State of Florida sets forth the duties of the Commissioner of Agriculture. It says that the Commissioner shall perform:

1. "Such duties in relation to agriculture as may be prescribed by law."
2. "Shall have supervision of all matters pertaining to public lands."
3. "Shall keep the Bureau of Immigration."
4. "Shall have supervision of the State Prison."
5. "Shall perform such other duties as may be prescribed by law."

I will name a few of the measures that have been enacted into law, broadening the scope of the Department in its agricultural and inspection work.

1. The Law Prohibiting the Sale of Immature Fruit.
2. The Frozen Fruit Law.
3. The Arsenical Spray Law.
4. The Standardization Fruit and Vegetable Law.
5. The Milk and Milk Products Law.
6. The Ice Cream Law.
7. The Commercial Fertilizer Law.

8. The Commercial Feeding Stuffs Law.
9. The Agricultural Marketing Law.
10. The Pure Food and Drug Law.
11. The Advertising Law.
12. The Gasoline Inspection Law.

This Biennial Report is issued in three volumes:

Vol. 1—This volume.

Vol. 2—The Twentieth Census of Crops and Manufactures.

Vol. 3—The Twentieth Census of Agriculture by Counties.

These reveal the present agricultural and industrial development of the State.

Respectfully submitted,

NATHAN MAYO,
Commissioner of Agriculture.

Prior to the year 1911, the Report of the State Prison Bureau was published in the General Report of the Commissioner of Agriculture.

Biennial Report No. 12 was the first separate report gotten out by this Department. It covered the biennial period of 1911 and 1912. Since that time a report has been published covering each biennial period. Several of the reports are out of print, however, the supply being small and becoming exhausted year by year.

No. 12, covering the years 1911 and 1912.

No. 13, covering the years 1913 and 1914.

No. 16, covering the years 1917, 1918, 1919 and 1920.

No. 18, covering the years 1923 and 1924.

No. 19, covering the years 1925 and 1926.

No. 20, covering the years 1927 and 1928.

No. 21, covering the years 1929 and 1930.

Copy of the 14th and 17th report cannot be had as they have all been given out except our office file copy.

1931-1932
ANNUAL FRUIT AND VEGETABLE REPORT
L. M. RHODES, *Commissioner*

FLORIDA STATE MARKETING BUREAU
Compiled by Frank Scruggs, Market News Specialist.

Shipments equivalent to 98,262 cars of fruits and vegetables were shipped out of Florida by rail, boat and truck during the 1931-32 season, having an estimated gross shipping point valuation of \$70,673,951. The foregoing shipment and value estimate for the so-called commercial movement does not include the equivalent of 17,871 cars of Florida fruits and vegetables consumed or canned within the State. The total volume of fruits and vegetables harvested and sold from the groves and farms amounted to 116,133 carloads, with a valuation of \$81,535,013, if we include \$7,607,024 as Florida's portion of all transportation charges spent within the State or waters adjacent. The 1931-32 crop harvest valuation of \$81,534,913 may be compared to \$97,077,214 for 1930-31, and \$88,757,313 for 1929-30 season, and was not a poor year when all factors involved are taken into consideration.

Commercial shipments of citrus by rail and boat were 49,235 carloads (385 standard boxes per car) with an estimated 7,428 cars (340 field boxes per car) out by auto truck. Citrus fruit used in canning accounted for 2,843 cars (340 field boxes per car) and that consumed in the cities, towns and villages of the State accounted for the equivalent of 6,000 cars. The total volume of citrus harvested and sold from the groves was estimated at 63,506 carloads, or 24,443,523 boxes, with a gross shipping point valuation of \$47,499,006, if we include \$4,422,254 spent on transportation within the State. All oranges, grapefruit and tangerines averaged a "net return" of 46c per average box for a total "net return" of \$11,279,634, as compared to \$8,794,052 for the big citrus crop season of 1930-31.

Vegetables, melons and non-citrus fruits handled by rail or boat were 39,692 cars, with 1,907 carloads out by auto truck. More than 7,478 carloads were consumed in Florida,

while approximately 200 carloads, mostly tomatoes, were canned in Florida. The foregoing commodities would have filled 50,627 cars with an estimated valuation of \$34,036,007 if \$3,184,770 transportation charges are included. The price return per car was only about 5 per cent less than for the 1930-31 season. The extraordinary large volume of beans, together with the satisfactory average prices prevailing, was the principal reason for the good showing of vegetables. Strawberries also moved in fairly good volume with very satisfactory average prices.

The 20 leading fruit and vegetable shipping counties during 1931-32 season, according to official records supplied by the U. S. Bureau of Agricultural Economics, and estimates made by the State Marketing Bureau, were in order of volume as follows: Polk, Seminole, Orange, Palm Beach, Lake, Hillsborough, Manatee, Broward, Dade, Pinellas, Highlands, Marion, Sarasota, Volusia, Hardee, Lee, Alachua, Brevard, St. Lucie and Indian River.

The 12 counties leading in strawberries, melons and other non-citrus fruits were as follows: Hillsborough, Lake, Alachua, Gilchrist, Polk, Marion, Suwannee, Hardee, Jackson, Levy, Sumter and Orange.

The 12 counties leading in shipments of vegetables, in order of carlots, were as follows: Seminole, Palm Beach, Broward, Dade, Manatee, Sarasota, Collier, St. Johns, Orange, Hillsborough, Lee and Flagler.

The 15 counties leading according to our estimate of the gross f. o. b. value of rail and boat shipments were approximately as follows: Polk, Orange, Seminole, Palm Beach, Hillsborough, Manatee, Lake, Broward, Dade, Pinellas, Highlands, Sarasota, Hardee, Volusia and Marion.

STATISTICS AND ESTIMATES ON CITRUS CROP FOR SEASON 1931-32.

Carlot Shipments	Carloads Reported Shipped	Total Boxes Rail and Boat	Total Boxes after Mixed Converted	Gross F.O.B. Return Florida Points		Production and Marketing Costs		Net Return* to Florida Growers

ORANGES, \$0.95 GRAPEFRUIT, \$0.85 TANGERINES, \$1.25 WEIGHTED AVERAGE, \$0.92

Total ordinary and average cost of production and marketing of citrus.

ORANGES, \$1.55 GRAPEFRUIT, \$1.25 TANGERINES, \$2.00 WEIGHTED AVERAGE, \$1.45

Estimate on All Citrus Fruit Trucked Out of Florida During the Season of 1931-32.

All Citrus	Carlot equivalent 7,428 or 2,525,520 field boxes.	Gross at \$1.20, \$3,030,318.	Net* at 40c, \$1,004,499
Oranges	Carlot equivalent 4,372 or 1,486,480 field boxes.	Gross at \$1.40, \$2,081,072.	Net* at 55c, \$ 817,564
Grapefruit	Carlot equivalent 2,641 or 897,940 field boxes.	Gross at \$0.90, \$ 808,146.	Net* at 20c, \$ 179,880
Tangerines	Carlot equivalent 415 or 141,100 field boxes.	Gross at \$1.00, \$ 141,100.	Net* at 5c, \$ 7,055

Estimates on Cannery Citrus Fruit Used in Florida During Season of 1931-32.

All Citrus	Carlot equivalent 2,843 or 966,533 field boxes.	Gross at \$0.71, \$ 687,482.	Net* at 5c, \$ 51,963
Oranges	Carlot equivalent 107 or 36,362 field boxes.	Gross at \$1.00, \$ 36,362.	Net* at 15c, \$ 5,454
Grapefruit	Carlot equivalent 2,736 or 930,171 field boxes.	Gross at \$0.70, \$ 651,120.	Net* at 5c, \$ 46,509

Estimates of Citrus Fruit (Not Hauled by Rail or Boat) Consumed in Florida, Season 1931-32.

All Citrus	Carlot equivalent 6,000 or 2,040,000 field boxes.	Gross at \$1.18, \$2,410,600.	Net* at 38c, \$ 780,300
Oranges	Carlot equivalent 3,300 or 1,122,000 field boxes.	Gross at \$1.40, \$1,570,800.	Net* at 55c, \$ 617,100
Grapefruit	Carlot equivalent 2,300 or 782,000 field boxes.	Gross at \$0.90, \$ 703,800.	Net* at 20c, \$ 156,400
Tangerines	Carlot equivalent 400 or 136,000 field boxes.	Gross at \$1.00, \$ 136,000.	Net* at 5c, \$ 6,800

NOTE: Gross and net* refer to returns at grove. The difference is cost of production and marketing.

UNITED STATES DEPARTMENT OF AGRICULTURE**BUREAU OF AGRICULTURAL ECONOMICS,****DIVISION OF CROP AND LIVESTOCK ESTIMATES**

37 East Pine Street, Orlando, Florida.

October 11, 1932.

Florida Citrus Estimate

The commercial production of Florida citrus for the season of 1932-33 is estimated at 18,500,000 boxes, of which 6,700,000 are grapefruit and 11,800,000 oranges, including tangerines. This is for the crop to move by rail and boat and includes express. Last year the total shipments by rail and boat were 18,900,000 boxes, of which 7,700,000 were grapefruit and 11,200,000 oranges, including tangerines.

Total Production is estimated at 23,500,000 boxes of which 9,200,000 are grapefruit and 14,300,000 oranges. This is for fruit to be utilized in any way and includes fruit moved by rail, boat and truck, fruit for canning and juice extraction and home consumption. Last year the total crop amounted to approximately 24,000,000 boxes, of which 10,200,000 boxes were grapefruit and 13,800,000 oranges. Present indications are that trucking will take a smaller portion of the crop and canning a greater volume than last year.

The outstanding feature of this year's citrus crop is the large percentage of late bloom fruit. The early bloom which came during the drought set one of the lightest crops of early bloom fruit in the history of the State. With the coming of rain, successive blooms followed and the prospects for the crop increased. With average weather conditions, sizes are expected to run above last year. Due to the lateness of much of the crop, the portion to move before January 1 will be lighter than usual, possibly not over 20 per cent, compared with a usual 30 or more. Distribution of the later crop should be better than a year ago when the heavy losses from dropping due to the drought cut down the supply of fruit for late shipment and shortened the shipping season.

While this estimate is based on the best information from growers and shippers of fruit, it is realized that the crop is later than usual, leaving more than the usual amount of leeway for an increase or decrease from the present estimated

figures. The loss of most of the Porto Rican crop after only about 40,000 boxes had been shipped, together with the shorter anticipated supply from Texas, should materially increase the demand for Florida grapefruit while the prospective increase in canning if carried out will still further increase the utilization of the fruit.

H. A. MARKS,
Agricultural Statistician.

**SOME FACTS CONCERNING THE ACTIVITIES OF THE
FLORIDA STATE MARKETING BUREAU DURING
ITS ENTIRE EXISTENCE, THE THREE YEARS
SINCE ITS FORCE WAS INCREASED, AND
FOR THE MONTHS OF APRIL, MAY,
JUNE AND JULY, 1932.**

During the fifteen years since the State Marketing Bureau was established, the records indicate that there has been produced in Florida agricultural products with a total approximate value of \$1,750,000,000. A careful survey of the records of the Bureau indicate that in the preparation, distribution, sale or exchange of the agricultural produce of Florida during these fifteen years, the Bureau has touched in some beneficial way, approximately \$1,000,000,000 worth of them.

The Bureau has also assisted in the purchase, sale or exchange of farm implements, farm supplies, building materials, wood, lumber, moss, herbs, furs, fish and other seafoods, rabbits, pigeons, frogs, etc., with a total value amounting to not less than \$75,000,000.

Market news has been furnished since 1921 covering 98% of the productive area of the State from 9 different stations. Approximately 1,000,000 words per month are sent out, giving marketing information on the Florida farm produce valued at from \$70,000,000 to \$100,000,000.

The Bureau began Federal-State Shipping Point inspection during the season of 1922-23, and since then has assisted in the inspection of 70,379 cars of fruits and vegetables.

A Three Year Period

Since the 1929 Legislature enlarged the activities of the Bureau, between August 1, 1929, and August 1, 1932, the field workers, consisting of three marketing specialists and the Commissioner, have taken part in 1,099 farmers' and shippers' meetings which had an attendance of 101,800 people. Visited 3,981 marketing conferences, attended by 22,759 growers and shippers; delivered 962 radio talks. Assisted in 1,047 cooperative sales at which 1,524 cars of live stock, poultry, eggs, wool, syrup, hay, corn, etc., were sold for which cash was paid amounting to \$1,605,156.

In addition to these cooperative sales, these field men have assisted in selling from the office 2,868 cars of live stock for slaughter and breeding purposes, poultry, eggs, wool, syrup, corn, grapes, satsumas, peanuts, etc., which brought growers and shippers \$2,017,073; and in less than carlots, dairy products, poultry and eggs, fish, seafoods, wool, syrup, hay, corn, pecans, and other miscellaneous products, valued at \$1,215,820, making a grand total of \$4,838,049.

Other Office Activities

The Assistant Commissioner, Market News Specialist and office force have given special marketing advice and assistance on the preparation, distribution and sale of 23,838 cars of fruit, valued at \$15,860,423; and in less than carlot shipments produce valued at \$5,485,929. Furnished market messages which were broadcast by 9 different stations, sent out by wire, phone, mail and radio, amounting to 31,582,736 words which were equivalent to 3,582,736 ten-word messages. This market news service has been available to every producer and shipper in the State.

This complete current daily market information is provided through the cooperation of the U. S. Department of Agriculture and has been available during these three years, on the sale of approximately \$300,000,000 worth of crops and livestock products.

We have advertised through the "For Sale, Want and Exchange Bulletin" \$12,694,262 worth of farm implements and agricultural products, and \$9,294,647 worth of this amount has been sold or exchanged.

We have assisted in giving Federal-State shipping point inspection on approximately 24,000 cars of fruit and vegetables and collected claims amounting to \$46,955.

Activities During Months of April, May, June, July, 1932

The Commissioner and Specialists have traveled 51,421 miles; visited 89 farmers' and shippers' meetings, attended by 8,945 people; took part in 784 marketing conferences, attended by 2,720 growers and shippers; delivered 121 addresses and 20 radio talks.

Assisted in setting up 7 new cooperative marketing organizations and reorganizing 3 old ones. Assisted in 40

cooperative sales at which live stock, poultry and eggs were sold which brought the growers \$13,813.00.

Sold from office by the Specialist: 238 cars of cattle and hogs, 13 pure-bred heifers, 8 pure-bred boars, and 50 pure-bred bulls, 4 pure-bred rams, 13 range calves and 20 dairy cows; 20,000 pounds of bacon, 4,000 pounds of poultry, 495 cases of eggs, 561 cars of vegetables, grapes and sweet potatoes, and 17,000 pounds of pecans, 2 cars of syrup, which brought \$485,895.

Inspected and graded 1,620 cases of eggs for market, valued at \$8,604.00, making a total business transaction of \$494,499. Advised with officials as to the establishment of 4 wholesale farmers' markets and the building and equipping of 2 packing houses.

In addition to these field activities of the Commissioner and Marketing Specialists, Assistant Commissioner and other office force, rendered the following service during April, May, June and July: Gave special marketing advice and assistance on 1,984 cars of fruits and vegetables valued at \$1,075,070. Assisted in marketing poultry and eggs valued at \$3,750. Supplied list of dealers in fruits, vegetables, live stock, poultry, corn, moss, roots, herbs, flowers, frogs, rabbits, fish, seafoods, etc., to 199 growers and shippers. Collected or adjusted claims for 101 shippers and growers, amounting to \$4,555.00. Advised 38 growers and shippers as to filing claims for violation of the Perishable Agricultural Commodities Act; advised 64 shippers as to crop data and general sales outlook; supplied complete miscellaneous information to 56 growers.

Distributed special market information to hundreds of growers and shippers; sent out during April, May and June approximately 3,000,000 words in Market News from 9 stations covering 98% of the productive area of the State.

Advertised in the "For Sale, Want and Exchange Bulletin" approximately \$4,500,000 worth of farm produce and agricultural implements and not less than \$1,300,000 worth was sold or exchanged; several thousand marketing bulletins, and rendered numerous other services which space forbids us to mention.

L. M. RHODES,
State Marketing Commissioner.

DUTIES OF INSPECTORS—INSPECTION BUREAU

Florida State Department of Agriculture

The sixteen inspectors operating under the Inspection Bureau of the Florida State Department of Agriculture, authorized by Section 10149 as amended by Chapter 11998, Acts of 1927, are charged with the following duties:

1.

Enforcement of the Gasoline Inspection Law

It is the duty of the inspectors to test filling station mechanism for accuracy and to stop the use of all pumps found giving short measure. Inspectors also draw samples of gasoline, kerosene and signal oil from the barges arriving in Florida ports; from tank cars and storage tanks as well as from the tanks of retailers. These samples are tested by the State Chemist to detect adulteration and determine whether they meet the specifications fixed by the State gasoline law. The number of gasoline stations fluctuates somewhat, but in round numbers amounts to eight or ten thousand with about twenty thousand pumps dispensing gasoline alone.

2.

Enforcement of the Commercial Fertilizer Law

Florida farmers and citrus growers buy on the average about 450,000 tons of commercial fertilizer each year, costing between ten and fifteen million dollars. The inspectors draw thousands of samples of fertilizer from warehouses, freight cars and from goods in the hands of farmers and these samples are transmitted to the State Chemist where a laboratory test is made which shows whether or not the fertilizer meets the guarantee of its plant food as registered with the Inspection Bureau. This service assures farmers as to the quality of their fertilizers and protects them against fraud through substitutes, adulterants and misbranding.

3.

Enforcement of the Commercial Feeding Stuffs Law

Florida stockmen, dairymen and poultrymen annually purchase about 250,000 tons of commercial feeding stuffs. The Feeding Stuffs Law requires the manufacturers of this commodity to register same with the Inspection Bureau, guaranteeing the feeding value of each product and listing its ingredients. A tag carrying this guaranteed analysis must be affixed to each bag sold and our inspectors draw from the various brands offered for sale samples which the feed analyst in the State Chemist's office subjects to a laboratory test. When the sample is found to carry less than the amount of animal food guaranteed, the lot from which the sample was drawn is placed under custody of the State Department and its further sale prohibited. Mouldy, sour or otherwise spoiled feed is destroyed. Inspectors also are instructed to seize goods found bearing tags which do not conform to registration or which may be placed on feeding stuffs that have not been registered. This law is of great protective value to all who use commercial feeding stuffs.

4.

Enforcement of the Pure Food and Drug Law

In common with other states, Florida's Pure Food and Drug Law follows the Federal Law on the same subject. In the enforcement of this law our field inspectors make examination of wholesale and retail stocks of food and drugs. Each year many thousands of cans of vegetables, fruits, preserves and canned eggs, fish and meats are found which are unfit for human consumption and must be destroyed. The inspector also has authority to withdraw from the market foods which bear labels that do not conform to the requirements as to correct weight, list of ingredients, or which may be shown to contain adulterants prohibited by the law. The protection afforded by this service to the consumers of food in Florida cannot be measured in mere dollars and cents.

In connection with the enforcement of the above laws our field force of sixteen men also carry out the enforcement of

the Florida Egg Classification Law as well as giving cooperation to the Federal officers in matters having to do with interstate shipments of various commodities coming under Federal Law.

The sixteen field inspectors are paid salaries of \$180.00 per month, having been reduced from \$200.00 per month. Their expense allowance is limited to \$150.00 per month, having been reduced from \$200.00. Mileage (included in the expense allowance) is 8 cents per mile, having been reduced from 10 cents. The Supervising Inspector's salary is \$3,000.00 per year, having been reduced from \$3,600.00. Salaries and expenses of the field inspectors are paid exclusively from inspection funds.

RESULTS OF INSPECTION WORK

Florida State Department of Agriculture 1932

Fertilizer and Feeding Stuffs

Total number Fertilizer and Feeding Stuffs Analyses	2,392
Total number deficient Fertilizer and Feeding Stuffs	
Samples	178
Percentage of deficiencies	7%
(Financial adjustments made between purchasers and manufacturers covering deficiencies.)	

Gasoline, Kerosene and Signal Oil

Total number of gasoline samples drawn	1,077
Total number found illegal	90
Percentage found illegal	8.3%
Gasoline paying inspection fee	207,099,525 Gals.
Kerosene paying inspection fee	24,417,010 Gals.
Signal Oil paying inspection fee	5,084 Gals.

(Several hundred thousands of gallons of gasoline were returned to manufacturers for refining. Gasoline retailers found guilty of adulterating kerosene with gasoline were prosecuted.)

Pure Food Condemnation and Destruction

Salmon	32,088 Cans
Tomato Paste	13,250 Cans
Beans	90,000 Cans
Dill Pickles	1,152 Quarts
Beets	1,200 Cans
Okra	1,800 Cans
Frozen Eggs	14,250 Pounds
Sausage	89 Pounds
Hamburger	88 Pounds

(In addition to above, thousands of bottles, cans and crates of adulterated vinegar, jams, preserves, sardines, arsenated celery and cabbage as well as other spoiled food stuffs were seized and destroyed.)

UNITED STATES DEPARTMENT OF AGRICULTURE

BUREAU OF AGRICULTURAL ECONOMICS

Division of Crop and Livestock Estimates,

37 East Pine Street Orlando, Florida.

February 17, 1933.

Florida Livestock Report

The estimated number of Florida livestock on January 1, 1933, shows no marked change from a year ago. There are slight increases in the number of cattle, swine and sheep. The number of mules shows no change but there is a slight decrease in the number of horses.

While there has been a slight increase in numbers, the values show a further decline from those of a year ago. On January 1, 1933, all Florida livestock was valued at \$12,368,000 compared with \$15,574,000 on January 1, 1932, and \$19,413,000 on January 1, 1931.

The number of horses on Florida farms continues to decrease and on January 1, 1933, was estimated at 18,000 compared with 19,000 a year earlier. The total value was \$1,059,000 compared with \$1,273,000 on January 1, 1932.

The estimated number of mules on January 1 was 42,000 the same as a year ago. The total valuation was \$3,108,000 compared with \$4,074,000 a year earlier.

The number of all cattle on farms shows a 5 per cent increase with a total of 480,000 head compared with 458,000 head a year ago. The number of milk cows was estimated at 93,000 head compared with 90,000 head in 1932 and yearling heifers at 18,000 head compared with 16,000 head a year earlier. All cattle are valued at \$6,732,000 compared with \$8,244,000 on January 1, 1932.

The estimated number of swine, 513,000, shows a 1 per cent increase over the 508,000 head a year ago. Total value is estimated at \$1,369,000 compared with \$1,880,000 a year ago.

Sheep were estimated at 44,000 head compared with 43,000 head a year ago and were valued at \$100,000 compared with \$103,000 a year earlier.

For the United States, an increase in the number of cattle

and hogs on farms and a decrease in the numbers of horses, mules and sheep is indicated. The number of milk cows also increased but there was a decrease in the number of yearling heifers for milk cows. While total livestock increased in numbers, the value decreased and on January 1, 1933, was \$2,661,985,000 compared with \$3,195,532,000 on January 1, 1932, and \$4,453,901,000 on January 1, 1931.

The following table gives revised numbers and farm values of livestock for 1931 and 1932 and estimates for January 1, 1933:

FARM ANIMALS	Jan. 1	FLORIDA			UNITED STATES		
		Thou- sand Head	Farm Value (a)		Thou- sand Head	Farm Value (a)	
			Per Head	Total (000 Omitted)		Per Head	Total (000 Omitted)
Horses and colts	1931	20	\$ 77.00	\$ 1,540	13,169	\$ 60.42	\$ 795,725
	1932	19	67.00	1,273	12,641	53.37	674,611
	1933	18	59.00	1,059	12,163	54.15	658,684
Mules and Mule Colts	1931	42	106.00	4,452	5,226	69.19	361,562
	1932	42	97.00	4,074	5,089	60.64	308,617
	1933	42	74.00	3,108	4,981	60.31	300,391
All Cattle and Calves	1931	432	23.70	10,238	60,987	39.30	2,396,731
	1932	458	18.00	8,244	62,656	26.63	1,668,742
	1933	480	14.00	6,732	65,129	19.93	1,297,828
Milk Cows (b) and heifers 2 years and over	1931	86	47.00	4,042	23,576	57.10	1,346,119
	1932	90	38.00	3,420	24,469	39.57	968,274
	1933	93	29.00	2,697	25,136	29.15	732,749
Heifers (b) 1 to 2 years for milk	1931	14	4,775
	1932	16	4,685
	1933	18	4,641
Swine Including Pigs	1931	498	6.10	3,038	54,399	11.36	618,077
	1932	508	3.70	1,880	59,078	6.14	362,511
	1933	513	2.70	1,369	60,716	4.21	255,538
Sheep and Lambs	1931	44	3.30	145	52,599	5.36	281,806
	1932	43	2.40	103	53,321	3.40	181,051
	1933	44	2.30	100	51,630	2.90	149,544
Total 5 Species	1931	19,413	4,453,901
	1932	15,574	3,195,532
	1933	12,368	2,661,985

(a) Total value represents sum of values by age groups.

(b) Included in all cattle and calves.

DEPARTMENT OF AGRICULTURE
OF THE
STATE OF FLORIDA

Division of Agriculture and Immigration

*TWENTIETH CENSUS OF CROPS AND MANUFACTURES
FOR THE YEARS 1931-1932*

AND

TWENTY-SECOND BIENNIAL REPORT

PART II

NATHAN MAYO
Commissioner of Agriculture
TALLAHASSEE, FLORIDA

LETTER OF TRANSMITTAL

DEPARTMENT OF AGRICULTURE, STATE OF FLORIDA
COMMISSIONER'S OFFICE

To His Excellency
Hon. David Sholtz
Governor of Florida

Sir:

Herewith is transmitted to you the Twentieth Census of Crops and Manufactures for the years 1931-32, consisting of statistics of the resources and industries of the State, written and compiled as a ready reference volume for Florida farmers, schools, libraries, and homes.

Respectfully submitted .

NATHAN MAYO
Commissioner of Agriculture

PREFACE

The reports of this Department have carried statistics on agriculture, manufacturing and climate for forty years. The Department has grown to such an extent that its eight Divisions now make separate reports. Naturally, the Division of Agriculture and Immigration issues all statistics and literature touching the above subjects.

Inquiries concerning every phase of Florida come to this office from every section of North America and Europe, South America, Australia, Asia and Africa. These inquiries, a large percentage of which is from prospective immigrants and investors, cannot be answered in full by letters. The only means of supplying the information sought is by sending the Reports of the Division of Agriculture and Immigration to the correspondents.

These Reports were printed in one volume till 1914, when the Report on Manufactures was put in a separate volume. In 1920 the Report was divided into two parts: Part One contained reading matter and Part Two contained all statistical matter. This has been adhered to

in all subsequent Reports whenever the two Reports come the same year.

The value of these statistics lies in the fact that they are not estimates, but are first-hand enumerations and are so regarded by inquirers.

The time for making this enumeration was changed by the Legislature of 1925 from every other year to every fifth year. The Federal Government now takes an agricultural census every fifth year and the State enumeration will alternate with it. The State enumeration includes statistics of manufactures as well as agriculture, which is not the case with the Federal report.

The enumeration here given will be the last taken by the State until 1937. Those wishing crop statistics by years will have to apply to the office of the Federal Agricultural Statistician at Orlando, Florida. The State Department of Agriculture does not make estimates—only enumerations.

NATHAN MAYO,
Commissioner of Agriculture.

COPY OF LAW UNDER WHICH THE STATISTICS
ARE GATHERED

CHAPTER 10031—(No. 9).

AN ACT to Amend Sections 2514, 2515, 2516 of the Revised General Statutes of Florida of 1920; Pertaining to "The Enumeration of Agricultural, Horticultural, and Live Stock, Manufacturing, Industrial and Other Statistics; for the Appointment of County Enumerators, to Define Their Duties, Provide for Their Compensation and to Define the Duties of the Boards of County Commissioners in Connection Therewith."

Be It Enacted by the Legislature of the State of Florida:

Section 1. That Section 2514 of the Revised General Statutes of the State of Florida be and the same is hereby amended to read as follows:

Section 2514.—*Duty of County Commissioners.*—It shall be the duty of the Board of County Commissioners of each County in the State at any regular meeting after July first of each quinquennial year, beginning with July, 1925, to select and appoint some competent person to be known as the County Enumerator, and immediately upon the appointment of such enumerator, said Board shall furnish the Commissioner of Agriculture with his name and postoffice address.

Duties of Enumerators.—It shall be the duty of the County Enumerator to call on all residents and the managers or legal representatives of all non-residents in their respective counties, who are engaged in agriculture, horticulture and live stock raising, and all persons, firms, companies, mining and other industrial pursuits, for such necessary facts and statistical information as the Commissioner of Agriculture may require, and for filling out such blank forms as may be furnished him by the Commissioner of Agriculture for the purpose herein stated.

Enumerator to Subscribe to an Oath.—Each Enum-

erator shall, before entering upon his duties, subscribe to an oath before the County Judge of his County that he will, to the best of his ability, perform well and faithfully the duties of the office of County Enumerator; the original oath to be filed with the Clerk of the Board of County Commissioners, and a duplicate copy shall be filed with the Commissioner of Agriculture.

Deputies.—The County Enumerator shall not appoint a deputy or deputies to assist him except on condition that the deputy or deputies shall receive the full remuneration per name which the County Enumerator receives under the provisions of this Act. Any Enumerator who violates this provision shall forfeit all claims for remuneration and his work shall be rejected.

Sec. 2. That Section 2515 be and the same is hereby amended to read as follows:

Term and Duties of Enumerators.—The first enumeration under this Act shall be for the fiscal year beginning July 1, 1927, and every fifth year thereafter, and the enumerators shall begin their work as soon after the first day of July, 1927, as practicable, and shall proceed to fill out all such blank forms and lists as may be furnished by the Commissioner of Agriculture, for the purpose, and they shall complete said blank forms and lists in accordance with instructions of the Commissioner of Agriculture and return them so completed in such proper form to the Boards of County Commissioners of their respective counties not later than the first day of November of the same year and each fifth year thereafter, in the same manner. It shall be the duty of the Enumerator to attach his certificate, sworn to before a proper officer authorized to administer oaths, that such statistical report is full, true and correct to the best of his knowledge and belief.

Duties of County Commissioners.—It shall be the duty of the Boards of County Commissioners at their first regular meeting in November of each fifth year, immediately upon receipt of the completed report from the enumerator, to carefully examine the several sched-

ules of said report furnished by the enumerators, and, if found correct, to forward the same to the Commissioner of Agriculture, so as to reach him not later than the fifteenth day of said November. The Boards of County Commissioners, as a body, or by a majority of such Board sitting in session shall attach their certificate to the report, stating they have examined the same, are satisfied with it, and approve it.

Sec. 3. That Section 2516 be and the same is hereby amended to read as follows:

Rate of Compensation and Manner of Payment.—Each County Enumerator shall be paid thirty cents for each person or resident of the County engaged in agriculture, horticulture, and live stock raising, and thirty cents for each manufacturing, mining or other industrial concern listed or enumerated under the provisions of this Act; Provided, that no farmer shall be listed unless he has as much as one acre of the crop enumerated; the said amount to be paid out of the funds arising from the sale of fertilizer stamps by the Commissioner of Agriculture, in the following manner:

Each Enumerator shall make out his bill against the State of Florida on a blank form supplied by the Commissioner of Agriculture, and such bill shall be approved by the Board of County Commissioners of his County, and then he shall forward the same to the Commissioner of Agriculture, who shall, if upon examination the said Enumerator's report is found correct and satisfactory as required by this Act, approve said bill and deliver it to the State Comptroller, who shall draw his warrant upon the State Treasurer for the amount of said approved bill and transmit the same to the said Enumerator.

Sec. 4. All laws and parts of laws in conflict with this Act are hereby repealed.

Sec. 5. This Act shall take effect upon its becoming a law.

Approved May 26, 1925.

SUMMARY OF PRODUCTION BY YEARS

Below is given a summary by years of the agricultural production as received through its enumerators by this Department. By comparison they serve to show the general trend of the farming, trucking, horticultural and live stock interests of the State.

YEAR 1913-14

Field Crops, acres	1,081,434
Vegetable and Garden Products, acres	93,413

Total Acreage in Cultivation	1,174,847
------------------------------------	-----------

Total Value of All Farm Products

Table No. 1—Field Crops	\$ 18,861,389
Table No. 2—Vegetable and Garden Products ...	13,185,904
Table No. 3—Fruit Products	13,447,435
Table No. 4—Live Stock on Hand	29,541,931
Table No. 5—Poultry and Products	4,665,001
Table No. 6—Dairy Products	4,130,925
Table No. 7—Apiary Products	104,550

Total	\$ 83,937,135
-------------	---------------

YEAR 1915-16

Total Acreage of Crops

Field Crops, acres	1,478,428
Vegetable and Garden Products, acres	68,955

Total Acreage in Cultivation	1,547,383
------------------------------------	-----------

Total Value of All Farm Products

Table No. 1—Field Crops	\$ 21,613,300
Table No. 2—Vegetable and Garden Products ...	10,724,519
Table No. 3—Fruit Products	13,511,950
Table No. 4—Live Stock on Hand	29,869,842
Table No. 5—Poultry and Products	4,559,876
Table No. 6—Dairy Products	3,881,452
Table No. 7—Miscellaneous Products	174,225

Total Values	\$ 84,335,164
--------------------	---------------

YEAR 1917-18

Total Acreage of Crops

Field Crops, acres	1,531,338
Vegetable and Garden Products	105,645

Total Acres in Cultivation	1,636,983
----------------------------------	-----------

Total Value of All Farm Products

Table No. 1—Field Crops	\$ 31,145,904
Table No. 2—Vegetable and Garden Products ...	18,838,149
Table No. 3—Fruit Products	16,381,818

Live stock on hand July 1, 1918, viz:

Horses	\$ 5,764,451
Mules	7,782,483
Milch Cows	2,542,446
*All other Cattle	23,670,239
Other Cattle Shipped	2,075,552
*Hogs on Hand	8,767,353
Other Hogs	11,478,002
Sheep and Goats	492,847

Table No. 4	62,573,373
Table No. 5—Poultry and Products	5,993,243
Table No. 6—Dairy and Products	6,017,296
Table No. 7—Miscellaneous Products	312,993

Grand Total \$141,262,776

*There were 85,689 cattle exported from the counties and State by packers and feeders in and out of the State, valued at \$2,075,552.

*Total number of hogs for the twelve (12) months would have been 2,164,722, if we could have included the 477,500 butchered and the 591,651 that were shipped out of the counties and the State for market by packers and others. The value of hogs butchered and shipped was, for the butchered, \$5,069,841, and those shipped, \$5,408,161, or a total of \$20,245,355 for hogs alone, including those on hand July 1, 1918.

YEAR 1919-20

Field Crops	\$ 27,671,320
Fruits	26,788,500
Stock Cattle on Hand July, 1920	21,444,525
Truck Products	15,818,297
Horses and Mules on Hand July, 1920	12,282,604
Poultry and Eggs	7,768,195
Milk and Butter	6,427,304
Hogs on Hand July, 1920	5,076,851
Milch Cows on Hand July, 1920	2,204,186
Thoroughbred Cattle on Hand July, 1920	1,454,154
Sheep, Wool and Goats	505,298
Honey and Beeswax	98,515

Total \$124,559,749

Nineteen per cent of the State is not represented in the above because ten counties did not report.

The aggregate value of all soil products actually marketed in the State during 1920 was approximately \$80,000,000.

YEAR 1921-22

The counties reporting for 1922 showed approximately the following values:

Fruit Crops	\$ 27,804,478
Field Crops	20,231,412
Truck Crops	17,378,323
Milk	6,490,493
Eggs	4,379,753
Poultry	3,045,000
Live Stock on Hand, all kinds	56,000,000

Total \$135,329,459

It is impossible to state just how much of the live stock is turned into cash and that represents a year's growth.

When production is stated in terms of dollars a comparison should be made of the general level of prices for a series of years. Prices of farm products went down during the general deflation from war prices.

YEAR 1923-24

Fruit Crops	\$ 21,637,762
Field Crops	14,765,738
Truck Crops	11,019,626
Root Crops	3,999,921
Miscellaneous Crops	2,661,168
Live Stock Marketed, alive or slaughtered	3,212,375
Poultry and Eggs	7,650,729
Milk and Butter	7,089,819

Total \$ 72,037,138

YEAR 1926-27

Field Crops	\$ 25,353,235
Truck Crops	12,549,459
Fruit and Nuts	31,325,033
Live Stock Sold	5,350,540
Poultry Sold	4,208,014
Eggs	6,446,611
Milk, Butter and Cheese	11,472,109
Miscellaneous Crops	5,842,745

Total \$102,547,746

YEAR 1931-32

Field Crops	\$ 10,189,843
Truck Crops	15,534,189
Fruit and Nuts	33,156,031
Live Stock Sold, alive or slaughtered	2,662,234
Poultry	2,480,840
Eggs	4,079,519
Milk, Butter and Cheese	8,552,785
Miscellaneous	3,158,462

\$ 79,813,903

AGRICULTURAL CENSUS ENUMERATORS AND THEIR POSTOFFICE ADDRESSES—1932

The enumerators were appointed by the County Commissioners and the work was turned over to the Commissioners and approved by them before the reports were sent to the office of the Commissioner of Agriculture.

Total	\$*1,890,933.29	\$*1,086,769.76	\$†3,068,056.72	\$‡576,510.49	\$6,622,302.22

* 25c per ton is charged for inspection of fertilizer and feed.

† 2½c per box is charged for inspection of Citrus Fruit.

‡ ¼c per gallon is charged for inspection of Gasoline, Kerosene and Signal Oil.

By the use of the above factors, the number of tons of fertilizer and feed, the gallons of oil, and the number of boxes of fruit can be obtained.
